Subject:

Thank you for consulting North West Leicestershire District Council on your emerging Local Plan Part 2: Land and Planning Policies.

We do not have any comments to make on specific allocations. However we would like to stress that as a result of using April 2019 as the base date for your housing land supply calculations, it will be essential to ensure that the assumptions made (particularly regard to expected completions prior to this date) are still robust and accurate at the time of adoption, and the figures recalculated, with additional sites identified, should there be further under provision in the intervening period.

Regards,

Ian Jordan
Team Leader – Planning Policy
