Housing Development

Housing Land Supply

Question 1: Do you agree with the Council's assessment of the present housing supply situation and that enough land will need to be identified by Local Plan Part 2 to accommodate around 2,000 new homes?

Yes

No

Don't know

Please provide any comments you wish to make to support your response.

Housing Sites adjacent to the Main Urban Area

Question 2: *Do you agree with the Council's view that none of the three strategic allocations (Melton Road, Edwalton; South of Clifton; and East of Gamston/North of Tollerton) should be expanded as part of resolving the current shortfall in the amount of land that is available for housing development over the next few years?*

Yes

No

Don't know

Please provide any comments you wish to make to support your response.

Yes as the failure to deliver at these sites is the very reason for this further consultation. Expanding these sites would most likely bring more uncertainty and a futher green belt review.

Sites should be considered throughout the Borough in villages and smaller settlements allowing all residential developers to get involved in the process of helping to meet this requirement so the Council is not totally dependent on the same large housebuilders

Question 3: *Do you support housing development at:*

	Yes – all of site	Yes – but only	No
--	--------------------------	-----------------------	-----------

		part of site	
Site HOL1 – Simkins Farm, Adbolton Lane, West Bridgford (potential capacity around 40 homes)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Any other location (please specify which)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please provide any comments you wish to make to support your answers. This could include comments on the services and facilities required to support development and the design, mix and layout of development.

Simkins Farmhouse is a listed building. The setting of the building will be affected by the development which directly adjoins the site. Development will result in coalescence and destroy the open aspect and wildlife habitat of part of the site. Flooding potential may also be a factor. We believe there must be more appropriate development opportunities elsewhere in the Borough.

Housing Development at the 'Key Settlements'

Rushcliffe Green Belt Review Part 2 (b) – Additional Sites (Draft for consultation)

Rushcliffe
Borough Council

Response Form

Your Details		Agent details (where applicable)
Melvyn Tisbury	Name	
Chair of Holme Pierrepont and Gamston Parish Council	Address	
	E-mail	

1. Green Belt Review Part 2 (b): Additional sites review

Do you agree or disagree with the review of the additional Green Belt sites around Rushcliffe’s Key Settlements and other villages against the purposes for including land within the Green Belt? If you disagree, state why the assessment is incorrect and provide your Green Belt score and conclusions on Green Belt importance. Your comment should focus on the land’s performance against Green Belt purposes.

We agree with the review and principle of altering the Green Belt boundaries but only to meet the requirement for the supply of housing land as set down by government.

We consider that sites for an additional 900 homes can only be identified if further land is released from the Green Belt.

The review of the Green Belt should look at sites which are considered most suitable, and deliverable now, for residential development having regard to the purposes of the Green Belt. The review should consider sites throughout the Borough and not just focus on the main built up areas.

The Parish Council are not in a position to comment on sites beyond its boundary and would merely state there is no benefit in adding the shortfall to the Land at the East of Gamston allocation as this would not assist in the delivery of houses early in the plan period. The shortfall should only be added to sites that are either currently under development or where an early start can be achieved, (please continue on a separate sheet if necessary)

2. Please provide any others comments you wish to make
