You can attach additional information but please make sure it is securely attached and clearly referenced.

Natural England welcomes the Habitat Regulations Assessment. Based on the information provided Natural England is satisfied that the HRA screening report covers our concerns and agrees with the Report’s conclusions that the Local Plan (part 2) policies would not be likely to have a significant effect on European Sites or on the Sherwood Forest prospective SPA either alone or in combination with other plans or projects.

With respect to the implications resulting from the recent decision of the Court of Justice of the European Union, People over Wind & Sweetman v Coillte Teoranta, Natural England is currently taking legal advice on this situation. Therefore we are not yet in a position to provide any detailed guidance on this matter. However as the Rushcliffe Local Plan’s HRA does not involve any mitigation measures at the screening stage it would unlikely to be impacted by this case. The Aligned Core Strategy HRA also does not identify mitigation issues within Rushcliffe’s area. However Natural England suggests that your authority seek their own legal advice on any implications of this recent ruling for your decision making on this plan.

7. **Please set out what change(s) you consider necessary to make the Local Plan Part 2 legally compliant or sound, having regard to your responses to Questions 5 and 6.**

You will need to say why this change will make the Local Plan Part 2 legally compliant or sound. It will be helpful if you could put forward your suggested revised wording of any policy or text. Please be as precise as possible.

(If you are suggesting that the Local Plan Part 2 is legally compliant or sound please write “Not applicable”).

   You may also use this box if you wish to make representations on one of the Local Plan Part 2’s supporting documents (e.g. Sustainability Appraisal, Habitat Regulations Assessment or Equalities Impact Assessment). You can attach additional information but please make sure it is securely attached and clearly referenced.

   Whilst we welcome the references to Best & Most Versatile (BMV) land in Policy16: Renewable Energy and Policy 22: Development within the Countryside (paragraph 6.15), we suggest that there should be greater provision for the protection of BMV land and soil within the Local Plan. We suggest that the reference to BMV land could be strengthened within Policy 22 and that the protection of soils could be added to Policy 1: Development Requirements.

   The plan should safeguard the long term capability of Best and Most Versatile (BMV) agricultural land (Grades 1, 2 and 3a in the Agricultural Land Classification) and make it clear that areas of lower quality agricultural land should be used for development in preference to BMV land. It should recognise that development (soil sealing) has an irreversible adverse (cumulative) impact on the finite national and local stock of BMV land. Avoiding loss of BMV land is the priority as mitigation is rarely possible. Retaining higher quality land enhances future options for sustainable food production and helps secure other important ecosystem services. In the longer term, protection of BMV land may also reduce pressure for intensification of other land.

   Recognition of the importance of soils in general should also be strengthened within the plan. Soil is a finite resource, and fulfils many roles that are beneficial to society. As a component of the natural environment, it is important that soils are protected and used sustainably. The plan should recognise that development has a major and usually irreversible adverse impact on soils. Mitigation should aim to minimise soil disturbance and to retain as many ecosystem services as possible through careful soil management during the construction process. The Plan policies should refer to the Defra Code of practice for the sustainable use of soils on construction sites.

   The inclusion of these points would ensure that the plan follows the advice set out in paragraphs 109 and 112 of the National Planning Policy Framework (NPPF) and would therefore be considered sound.
7. Please set out what change(s) you consider necessary to make the Local Plan Part 2 legally compliant or sound, having regard to your responses to Questions 5 and 6. You will need to say why this change will make the Local Plan Part 2 legally compliant or sound. It will be helpful if you could put forward your suggested revised wording of any policy or text. Please be as precise as possible.

(If you are suggesting that the Local Plan Part 2 is legally compliant or sound please write “Not applicable”).

Natural England suggests that the protection of soils and Best & Most Versatile (BMV) land should be strengthened within the Plan and that additional wording could be included within the following policies:

Consideration of BMV land should be included in the policy wording of Policy 1: Development Requirements, the following wording is suggested:
"Development should have regard to the BMV agricultural classification of the land, with a preference for the use of lower quality over higher quality agricultural land. Development should also aim to minimise soil disturbance and to retain ecological connectivity as far as possible."

Consideration of BMV agricultural land should be included in the main policy wording of Policy 22: Development within the Countryside, for example within point 3a, to reflect the wording set out at paragraph 6.15.

8. **If your representation is seeking a change, do you consider it necessary to participate at the hearing sessions of the Public Examination?** (please tick one box only)

[ ] Yes, I wish to appear at the examination

   Natural England welcomes this policy and the positive approach that it takes towards the protection and enhancement of biodiversity throughout the Borough. We are pleased to note that the “mitigation hierarchy” has been included which can help to ensure that there is no net loss of biodiversity. We consider that the additional explanation contained in the accompanying text regarding the importance of enhancing the wider ecological and green infrastructure network at the earliest stages of development is very useful. We are also pleased to note the reference to the Rushcliffe Biodiversity Opportunities Report which provides valuable evidence of local ecological assets and identifies habitat networks which could be improved, expanded, and connected.
